Last week, Steve and Janet Nickse's young son Carter Nickse was diagnosed with Pre B Acute Lymphoblastic Leukemia. Carter is currently hospitalized at All Children's Hospital in St. Petersburg, FL and has already undergone multiple blood transfusions, a spinal tap and begun chemotherapy to combat the illness. The treatment plan is lengthy and expensive, however, with our thoughts and prayers we will see the family through to a successful outcome.

The Nickse's have a GoFundMe account set up to coordinate assistance; the link is provided below should you wish to assist them at this time.
