

Meet Our Speaker: **Gil Pionney**

Gil Pinney was born in Illinois. He received a degree in Mathematics from Rockford University and an MBA from Northern Illinois University. His area of expertise is process improvement in the manufacturing and administration areas of business. Gil created value for well-known companies as Pfizer, Frito-Lay, Molex and ITT as well as several smaller companies. He has been fortunate to have had assignments and operations in different regions of the world. Retiring early, Gil has devoted much time to leading non-profit organizations including American Society for Quality, Toastmasters, SCORE and Alpha House of Pinellas. He is on the board of directors for ALPHA House and will speak to the Rotary Club about the role that ALPHA House plays in the community. ALPHA House is a safe residential living space for homeless pregnant women. The objective is to help them become self-sufficient mothers. ALPHA House has been helping families in the community since 1979. With the assistance of our supporters, we have provided housing and services to more than 3000 women, teens and infants. ALPHA House is important to Gil as he is a family man with three sons and six grandchildren. ALPHA House provides that special safe “family” for women who have been abandoned by their biological family. This is healthy for the mother and the newborn baby. ALPHA House works to establish a base of love and family responsibility.
